PROFILE

Passionate developer from Coimbatore with a strong foundation in programming and a keen interest in AI/ML applications. Graduated in 2025 from Sankara College of Science and Commerce, with a focus on building practical technology solutions.

EDUCATION

Sankara College of Science and Commerce

Graduated 2025 — Focus on Technology Solutions

SKILLS

Python • Java • HTML • CSS • JavaScript • Data Structures • AI / ML

PROJECTS

AI-Based Campus Chatbot

Python, NLP, Flask

Built a chatbot that answers student queries about courses, timetables, and campus facilities using rule-based and NLP-assisted logic.

E-Commerce Storefront

HTML, CSS, JavaScript, Bootstrap

Developed a responsive online store front-end with product listings, a shopping cart, and a checkout flow.

Student Result Management System

Java, MySQL, Swing

Created a desktop application to record, calculate, and manage student results with a MySQL backend.

Data Structure Visualizer

JavaScript, HTML, CSS

Built an interactive tool that animates stacks, queues, and sorting algorithms step by step.

INTERESTS

AI / ML applications • Web development • Problem solving • Open-source learning
